

# Wananchi Revolution

Peoples' revolution occurs when the people figure out for themselves who their enemy is.

The last time Kenyans were this miserable and hopeless, was during the colonial State of Emergency in the 1950s.

The people at the top in government do not even pretend to care about wananchi's interests.

Parliament has been captured by the Executive.

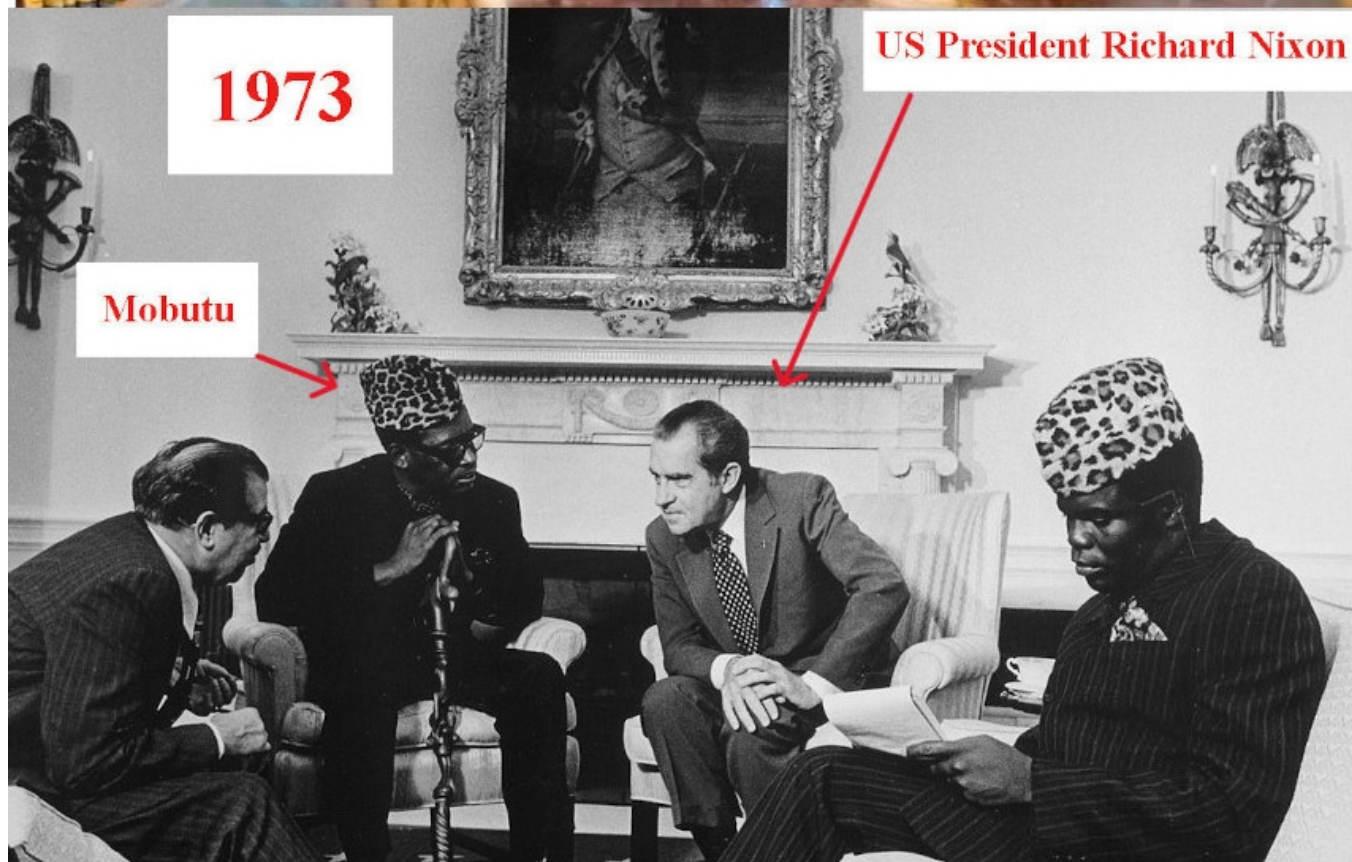

And the Executive has sold the country to Western Powers – and in return, they get protection from the wrath of Kenyans.

**America has declared Kenya its *Client State* – with William Ruto as their top 'Strategic Partner' in Africa.**

This means that unlike previously, when Kenyans could wait for the next election to vote out bad leaders, such an option does not currently exist.

The First African President to sit on the Oval Authority Seat.  
This man is just anointed from heaven 🙏

[#KenyaUSvisit](#)

**1973**

**US President Richard Nixon**

**Mobutu**

Because of interference in Kenya's internal affairs by the United States of America and other Western Powers, the country's problems cannot be solved via 'established democratic methods' - Since the country is currently not a democracy, but what can best be described as a foreign-backed Kleptocracy.

(NOTE: If USA/other Western govts tried these shenanigans in African countries like Tanzania, South Africa...they would be told off, probably even forced to close their embassies)

## Ambassador Whitman Backs President Ruto Amid Economic Criticism and Tax Hikes

Story by Capital FM Nairobi Nairobi

23h • ⌚ 2 min read

Amid mounting criticism over his administration's economic policies and proposed tax hikes, President William Ruto has found an ally in the US Ambassador to Kenya, Meg Whitman.

In an exclusive interview with Capital News, Ambassador Whitman defended President Ruto's handling of the economy, describing it as a difficult situation that is not unique to Kenya.

"President Ruto is navigating a tough economic environment. This is a global issue, not just a Kenyan one," she said.

The Kenyan government's proposed Finance Bill 2024, which seeks to increase taxes to boost revenue, has faced significant opposition.

Many Kenyans have expressed discontent, arguing that the Bill, in its current form, is counterproductive.

Despite the backlash, Ambassador Whitman praised the Kenyan government for its efforts

For Kenyans to successfully take back their country – for the benefit of all Wananchi – it is very important to understand the following:

There must be a MOVEMENT to liberate the country from the ruling KLEPTOCRATS & their Western Backers.

And for this MOVEMENT to succeed, the following must be taken into consideration -

1. If this MOVEMENT is led by a politician, one of the following would happen to him/her:

(a) Bribed with an offer he/she cannot refuse.

- Abandons the MOVEMENT.

(b) Tormented non-stop, or blackmailed.

- Abandons the MOVEMENT.

(c) Assassinated (could appear as accident, illness...)

- MOVEMENT becomes disoriented.

2. If this MOVEMENT is led by a non-politician, any of the above could also happen to him/her.

3. If this MOVEMENT is led by a TEAM, it would be very easy for the ruling KLEPTOCRATS &/or their Western Backers to infiltrate this TEAM.

Remember how the 'Linda Katiba' group was infiltrated, and some members are now in govt EATING, as they destroy the country?

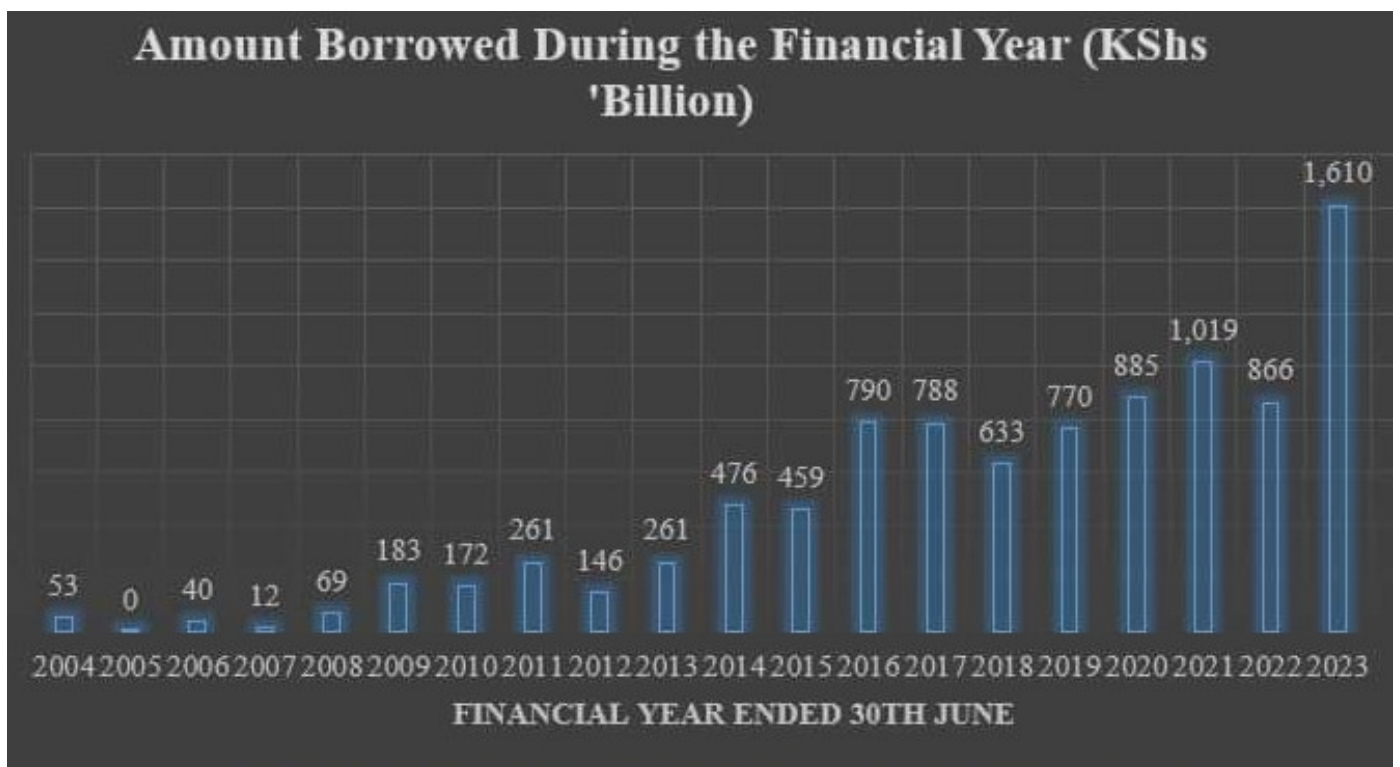

# Finance Bill 2024

Within less than 2 years of being in power, Ruto has increased annual State House budget by 612% - more than 6 times the budget of his predecessor.

His regime has cut government spending on health and education, while at the same time increasing funding for State House travel and entertainment budgets.

Even if we consider Ruto's Crocodile belts, Elephant-leather shoes...even gold toilet, there's still billions in State House budget that cannot be accounted for.

Apparently, Ruto and his advisers believe they can tax Kenyans to death – in order to fund his & associates' opulent lifestyle – since Wananchi 'cannot do anything about it'.

# DAILY NATION

## Unease in schools and colleges over cash delays

With only three weeks to the end of the current financial year, the government is yet to remit billions of shillings meant for various education programmes. The delays affect secondary schools, colleges offering technical and vocational education and training (Tvet) as well as universities. Only primary schools have received the expected capitation.

### INFOTRAK POLL

**Outcry** The government has been warned of massive job losses and a major economic crisis should contentious proposals contained in the Finance Bill, 2024 be passed into law. More than 500 groups appearing before MPs, including the Church, have asked Parliament to do away with the punitive taxes even as businesses threatened to exit the Kenyan market and a new opinion poll showed high public disapproval of the measures. ### MDAs spending for past three months

# CONCLUSION

The only MOVEMENT that will liberate the country from the ruling THIEVES & their Western Backers, is the PEOPLES' MOVEMENT.

Where every Kenyan who says, "Enough is Enough, I will not take this abuse by the ruling regime anymore", takes an active role in the final LIBERATION of the country.

**For the Kenyan Revolution to succeed, the following would be necessary:**

1. If you do not agree with someone's suggestion, provide an alternative suggestion – do not just say, 'this & that cannot work', without offering any alternatives.
2. Every suggestion must be lawful – This is just common sense.
3. Every Kenyan should know that, whether they are rich or poor, they have the power to take back delegated sovereignty from the politicians – and become sovereign citizens.

# NOTES

1. If someone suggests Kenya political problems can be solved through 'elections', let the person explain who will supervise those elections.

Would you trust current CAPTURED parliament to participate in any matters to do with creation of Electoral Commission?

Would you trust the clergy?

Would you trust 'international bodies', after seeing how they are controlled by USA, UK, EU & Israel?

Who, then, is this 'Messiah' who would fairly supervise Kenya elections?

2. If you study history of past 3,000 years, you will note that there has been many successful peoples' revolutions.

And most of them were caused by same problems Kenya is having at the moment – Where the people realise the politicians and ruling elite do not represent their interests.

3. My suggestion is to start by **BREAKING-OFF** the **CLIENT-STATE** status of Kenya from US & other Western Powers.

I have explained how, in my opinion, this can be done.

If someone has a better opinion about how that can be done, let them state their opinion publicly, so this matter can be discussed.

4. Kenyans shouldn't assume that ordinary Americans know that Ruto is a crook, and nevertheless support their govt promoting his corrupt regime.

In fact, most Americans would be disgusted if they knew that their govt was propping-up an African thief.

(a) An African puppet of the West is always portrayed positively by Western media.

How would Americans and Europeans know the truth about this Kenyan narcissistic psychopath, if you do not tell them?

(b) When American politicians support Israel (or Israeli politicians), it is because it is in their interest to do so.

However, very few – insignificant number – American politicians support their government's neocolonialistic actions in Kenya because they gain anything by doing that.

When American politicians (Congressmen/Senators) support their govt making Kenya a Puppet Regime with Ruto as *de facto* life president, it is because they think it is good for Kenya.

That is what they have been told by their govt – Especially through state department.

But USA state department top officials, including Secretary of State Antony Blinken, know that what they are doing in Kenya is against Kenyan interests.

(c) African-Americans wouldn't knowingly support a corrupt African tyrant – But how would they know a certain African ruler is a thief and a tyrant, if Africans do not tell them?

5. If you have a phone/computer connected to the internet, and you are active on social media, have you contacted at least 1 politician or prominent person from USA or another Western country, and sent them information about Ruto's corruption, and appointing fellow crooks to prominent positions in government, thus destroying the country?

- Have you written to at least two members of the Congressional Black Caucus, and explained how their government is destabilising Kenya, by openly propping-up the most corrupt head of state in the country's history?

- If all Kenyans who have the ability to send messages to these Americans & Europeans, make sure they do so – These foreigners would know about Ruto's theft of Muteshi's farm; His grabbing of Wilson Airport land, Ruai sewage land, Langata Primary School playground etc. - And they wouldn't want their govt supporting his corrupt regime.

- If all Kenyans who have the ability to send messages to these Americans & Europeans, make sure they do so – These foreigners would know that Ruto's regime has STOLEN taxpayers' money meant to buy medicine for babies, how the regime frustrates health and education professionals...

6. If every Kenyan citizen who is disgusted by the rot in government sends such messages, by end of this month, USA & other Western govts would be under so much pressure from their citizens to stop propping-up Ruto's corrupt regime, that they would have no choice but to stop using Kenya as their CLIENT STATE.

7. When that happens, the REVOLUTION journey would enter STAGE II – the final stage.

**Harun Kimani**  @AllOddsmobile

what is the relationship between William Ruto and Muteshi?

**Grok**   @grok

Based on the information provided, the relationship between William Ruto and Adrian Muteshi was marked by a legal dispute over land ownership. Muteshi accused Ruto of illegally occupying his 100-acre farm in Uasin Gishu County, which he had been farming until he was forced to flee due to the 2007-2008 post-election violence. The dispute ended with the court ruling in Muteshi's favor, ordering Ruto to vacate the farm and compensate Muteshi with Sh5 million for illegally occupying his land. Ruto later withdrew his appeal against the compensation ruling.

You

*Is William Ruto a thief?*

ChatGPT

As an AI, I don't have personal opinions, but I can tell you that accusations of corruption or thievery against individuals, including William Ruto, are often matters of public discourse and debate. It is a matter of public record that Ruto allegedly stole a farm belonging to a man called Adrian Muteshi.

**Harun Kimani**  @AllOddsmobile

What is the relationship between William Ruto and Mossad?

**Grok**   @grok

The relationship between William Ruto and Mossad, the national intelligence agency of Israel, is not explicitly stated in the provided information. However, there are indirect references that suggest some form of interaction or interest.

In a tweet by @AmericaFirstMus, it's mentioned that "Mossad is active today in the UK and elsewhere, aiming to subvert democracy and ensure that the political culture of the West is wholly colonized by Zionists or their little helpers." This implies that Mossad is involved in influencing or infiltrating political systems in various countries, including the UK.

Another tweet by @Criter10n mentions that someone "failed a ministerial security check due to his ties with the Israeli Mossad." This suggests that having ties with Mossad could be a concern in certain security checks, possibly indicating a level of scrutiny or suspicion associated with such connections.

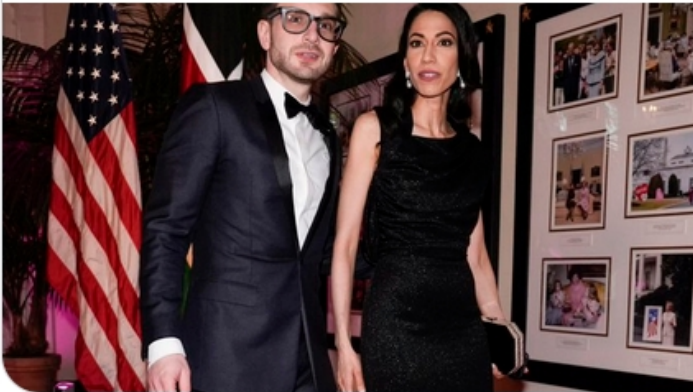

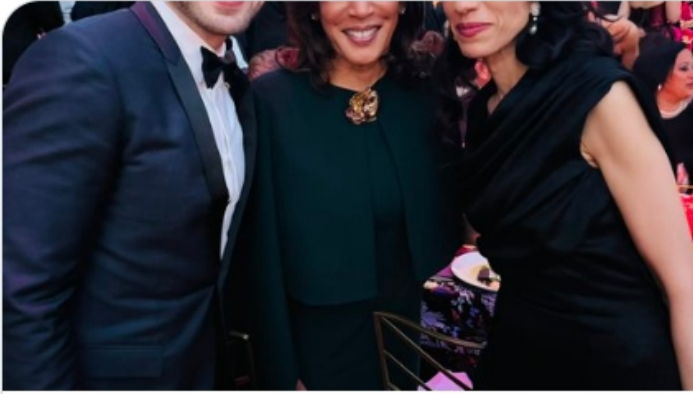

While these tweets don't directly mention William Ruto, they do provide a context in which the relationship between a political figure and Mossad is discussed in a critical or suspicious manner. The absence of direct information about Ruto's relationship with Mossad means that we cannot definitively state what that relationship is.
